Cedar Panels

Boston style (2" horns on bottom)

Functional and Decorative Hardware

ELITE SERIES LOUVER/PANEL COMBO SHUTTERS

Elite Series combination shutters are made using only the finest materials. Louver and panel combination shutters have a square edge on all stiles and rails. They are built using mortise and tenon construction, raised panels (raised 1 side) and "flush face" design (all stiles and rails are the same thickness). These shutters are fully customizable – almost any part can be modified and located to suit your needs. Elite Series shutters are thicker, stiles and rails are wider and have the appearance of a more substantial and heavier shutter.
